

# Statement

The primary motivation to have this opportunity is to contribute to the diverse element from my country and enable the organization to spread its reach more effectively. Currently, I am enrolled in political science exposing me to a great amount of knowledge in matters of centrism, political biases, and Asian reluctance towards foreign forums and organizations. My mission as an advisor in IAPSS will be encouraging the Asian youth to engage with the organization and showcase their ideas which can be considered as a first step towards making the world a global village. As a scholarship recipient from IAPSS, I am optimistic that this is the organization with whom I should be a volunteer and work hours.
